## STEEL UNDERWRITERS

TO GET \$10,000,000 FEE.

Syndicate Guarantees for Four Per Cent Commission to Provide \$100,000,000 to Finance Conversion of Stock.

The underwriting syndicate formed to finance the proposed conversion of preferred stock of the Steel Trust into bonds is to get \$10,000,000 for its services.

Its members will be paid 4 per cent. commission on the entire issue of \$200,000,000 5 per cent. bonds which it is proposed to substitute for \$200,000,000 of the 7 per cent. preferred stock.

The underwriting syndicate, which will get exactly \$10,000,000, guarantees to provide \$100,000,000 of the preferred stock, which is one-half of the total amount to be converted into bonds.

At the special meeting of the stockholders to be held in New York May 13, when the conversion plan is to be voted on, the stockholders will also be asked to approve the contract made April 1 last between the Steel Trust and J. P. Morgan & Co.

Article 3 of this contract, which heretofore has not been made public, reads as follows: "The syndicate shall guarantee the conversion of the Steel Trust into bonds, which will leave it \$10,000,000 in cash."

The original underwriting syndicate for the United States Steel Corporation made more than \$10,000,000 out of the conversion of the billion-dollar conversion. Many of the members of the syndicate are included in the list of the new \$10,000,000 bond issue.

A SECOND-HAND RANGO WILL, and a steady sale if advertised in the Sunday World.
